6.1 Future Works & Stages

STAGE 1A - Construct new two storey extension to existing Student Centre Hall including:
- Reproofing of hall amenities and change rooms to facilitate Hall extension in 1B.
- New lettable tenancies along existing access road frontage at ground floor level.
- New Student Services facility on ground floor.
- New flexible meeting rooms & learning spaces that can be utilised by students and/or hired out (ground floor level).
- New GLA’s and learning areas to create a new Year 7 Precinct (8-12 rooms) at first floor level.
- Potential for new hall observation area at first floor level.
- New stair and lift for access to first floor.
- Commission new facilities and decant services

STAGE 1B:
- Demolition of existing Hall amenities to facilitate court duplication.
- Existing court to operate at slightly reduced capacity for the duration of the building works.
- Construct new Hall extension to duplicate the existing arrangement towards the East.
- New Hall to incorporate demountable seating and stage to be utilised for performing arts during Stage 3A.
- Commission new facility in its entirety.

STAGE 2A - Construct new two storey Science and Lecture Theatre building including:
- Demolition of existing Student Services Building and disused demountable buildings (5 No).
- Provide new 120 seat Lecture Theatre at ground floor level.

STAGE 3A - Extend and refurbish the existing Performing Arts Building including:
- Demolition or refurbishment of existing Music Building.

STAGE 3B:
- Construct new Kindergarten / Child Care Building at the front of the School.
- Reconfigure parking and access for safety and autonomy.
- Bus shelters and covered walkway links that provide sheltered access to existing school walkway network and dry waiting for buses/pickup. Consider the aesthetics of these structures which are at the public face of the School and should assist with way finding for visitors.
- Interim refurbishment of Canteen & surrounding outdoor areas. Ultimately Canteen to be replaced.
- Progressive refurbishment of the Home Economics Building.
- General maintenance, refurbishment, and redevelopment of landscape spaces.

OTHER WORKS - Projects and Facilities that can be undertaken at any time as funding permits:
- Construct new Kindergarten / Child Care Building at the front of the School.
- Recommission existing school walkway network and dry waiting for buses/pickup.
- Consider the aesthetics of these structures which are at the public face of the School and should assist with way finding for visitors.
- Interim refurbishment of Canteen & surrounding outdoor areas. Ultimately Canteen to be replaced.
- Progressive refurbishment of the Home Economics Building.
- General maintenance, refurbishment, and redevelopment of landscape spaces.

The scope and order of each stage may vary depending on various factors including funding and the primary needs of the School as time progresses, therefore the order of implementation may differ from that outlined above.
